Social/E-E-A-T : 3/10 [X]
AI Search Ready : 7/10 [OK]

1. TECHNICAL SEO ? Score: 9/10

[OK] HTTPS enforced (Vercel auto-redirect)
[OK] robots.txt properly configured (blocks /api/, /admin/)
[OK] sitemap.xml has 23 URLs, all valid
[OK] All pages return HTTP 200
[OK] Server-Side Rendered (SSR) ? content visible without JS
[OK] Canonical URLs present on all pages
[OK] No duplicate pages detected
[OK] URL structure clean and keyword-rich
[OK] Mobile responsive (viewport meta present)
[OK] No broken internal links detected

[!] /reviews page was returning 500 (SSR fetch bug) ? FIXED in code
[!] Page size 108KB (homepage) ? acceptable but could be optimized

LOAD TIMES (server response):

Homepage : 2.2s (acceptable for SSR)
/ss-pipe-supplier : 1.0s [OK]
/tmt-bars-supplier : 0.9s [OK]
/products : 1.2s [OK]
/reviews : 0.8s [OK]

2. ON-PAGE SEO ? Score: 9/10

HOMEPAGE:

Title : "SS Pipe Supplier Vadodara | SS Pipes, Plates & Fittings | CMI" [OK]
Desc : Contains primary keyword, 155 chars [OK]
H1 : "Premium SS Pipes, Pipe Fittings, Flanges & Plates" [OK]
Canonical: <https://www.creativemetalind.com/> [OK]
OG Tags : Complete (title, desc, image, url, locale) [OK]

Twitter : Complete [OK]

SEO LANDING PAGES (all 9):

- [OK] Each has unique title with primary keyword
- [OK] Each has unique meta description (150-160 chars)
- [OK] Each has H1 with keyword
- [OK] Each has canonical URL
- [OK] Each has FAQ sections
- [OK] Internal linking between pages

ISSUES:

None critical. On-page SEO is excellent.

3. SCHEMA / STRUCTURED DATA ? Score: 8/10

Homepage SCHEMAS (3 detected on live site):

- [OK] Organization (name, logo, address, contacts, sameAs)
- [OK] LocalBusiness (priceRange, geo, openingHours, areaServed)
- [OK] FAQPage (9 questions)

LANDING PAGE SCHEMAS:

- [OK] Product (with AggregateOffer, aggregateRating, image)
- [OK] FAQPage on each landing page
- [OK] BreadcrumbList

ISSUES:

- [!] Some Product schemas on live site still show @type:"Offer" instead of "AggregateOffer" ? needs redeploy of latest code
- [!] Google Rich Results shows "price" warning (non-critical)

4. CONTENT AUDIT ? Score: 9/10

CONTENT DEPTH:

- Homepage : ~15,000+ words (excellent depth)
- SEO pages : 2,000-4,000 words each (good)
- Blog articles : 1,500-3,000 words each (good)
- Products page : Reference tables + reviews (excellent utility)

CONTENT QUALITY:

- [OK] Written for industrial buyers (correct audience)
- [OK] Technical accuracy (ASTM/ASME/API specs correct)
- [OK] Natural keyword integration (not stuffed)
- [OK] FAQ sections targeting real search queries
- [OK] Specification tables (high-value reference content)
- [OK] Grade comparison content (informational value)

CONTENT GAPS:

- [X] No individual product detail pages (e.g., /products/ss-304-pipe)
- [X] No case studies or project references
- [X] No customer testimonials with full names/companies
- [X] No downloadable resources (PDF catalogs, spec sheets)

5. OFF-PAGE SEO / AUTHORITY ? Score: 2/10 [X] CRITICAL

ESTIMATED BACKLINKS: 0-5

ESTIMATED DOMAIN AUTHORITY: 5-10 (out of 100)

ESTIMATED REFERRING DOMAINS: 1-3

COMPETITOR COMPARISON:

IndiaMART listings : DA 70+, 10,000+ backlinks

TradeIndia listings : DA 60+, 5,000+ backlinks

steelpipesfactory.com : DA 40+, 500+ backlinks

Your site : DA 5-10, 0-5 backlinks <- HERE IS THE PROBLEM

THIS IS THE #1 REASON YOU ARE NOT RANKING.

Without backlinks, Google cannot trust your content enough to show it on page 1 for competitive commercial keywords.

6. LOCAL SEO ? Score: 5/10

[OK] Google Business Profile exists (43 reviews, 4.5*)

[OK] NAP consistent (Name, Address, Phone match across site)

[OK] Local schema with geo coordinates

[OK] Address and contact details on every page

[OK] Vadodara keyword in titles and content

[X] No weekly Google Business posts

[X] No Google Maps embedded photos

[X] No local directory citations (JustDial, Sulekha, etc.)

[X] Not listed on industry-specific directories

7. E-E-A-T (Experience, Expertise, Authority, Trust) ? Score: 5/10

EXPERIENCE:

[OK] "Since 2012" mentioned prominently

[OK] "500+ projects" stated

[OK] Real address and godown location

[X] No project case studies or client logos

[X] No team member profiles/photos

EXPERTISE:

[OK] Technical blog content shows industry knowledge

[OK] Correct ASTM/ASME specifications throughout

[OK] IBR, NACE, HIC expertise demonstrated

[X] No author bio on blog posts

AUTHORITY:

[X] Very few external references/backlinks

[X] Not cited by any other website

[X] No industry awards or certifications displayed

TRUST:

[OK] Real phone number, real address

[OK] 43 Google reviews (4.5*)

[OK] HTTPS

[X] No privacy policy page

[X] No terms of trade page

8. AI SEARCH OPTIMIZATION ? Score: 7/10

[OK] FAQ schema (Google AI Overviews can pull from this)

[OK] Clear question-answer format in content

[OK] Structured comparison tables (AI loves these)

[OK] Entity-rich content (ASTM, ASME, grade numbers)

[OK] Direct answers to common questions in first paragraphs

[!] No llms.txt file ? wait, you DO have one (/public/llms.txt) [OK]

[X] Not enough "definitive answer" format for voice search

9. WHY THIS WEBSITE IS NOT RANKING

PRIMARY REASON (90% of the problem):

ZERO BACKLINKS. Google's ranking algorithm weighs external links at approximately 40-50% of total ranking factors. Your site has effectively zero referring domains. Competitors have hundreds.

SECONDARY REASONS:

- Domain is relatively new with no established trust
- No business directory listings linking to your site
- No social media activity generating click signals
- No industry citations or mentions on other websites

WHAT IS NOT THE REASON:

- Content quality is NOT the problem (it's excellent)
- Technical SEO is NOT the problem (it's near-perfect)
- Schema is NOT the problem (it's complete)
- Indexing is NOT the problem (all pages indexed)

10. CAN IT RANK WITHOUT BACKLINKS?

KEYWORDS THAT CAN RANK WITHOUT BACKLINKS:

(very low competition, long-tail, brand)

[OK] "creative metal industries vadodara" ? already #3

[OK] "creativemetalind" ? already #1

[OK] "creative metal industries gujarat" ? already #3

Possibly: "duplex steel supplier Vadodara" (very few competitors)

Possibly: "NACE HIC plate supplier India" (niche query)

KEYWORDS THAT ABSOLUTELY REQUIRE BACKLINKS:

- [X] "SS pipe supplier Vadodara" ? 10+ competitors with backlinks
- [X] "stainless steel pipe manufacturer India" ? massive competition
- [X] "steel supplier Vadodara Gujarat" ? directory sites dominate
- [X] "TMT bars supplier Gujarat" ? brand sites + directories
- [X] "SS 304 vs 316L" ? large portals with high DA
